

Meetings For Change

24hr Delegate Rate

Alexandra House recognise the risks posed to the planet from climate change and that the consequences of this change are being felt by people all around the world, that's why, as part of our Future First Charter we created our 'Meetings for Change' 24hr Delegate package.

Sustainability is high on our agenda and all our packages are delivered to you with this in mind!

Food is at the heart of everything we do. From careful consideration of our supply chain through to the diner experience, each aspect supports eating better for the environment, our health, animal welfare and supports local communities. Our climate promise is to reach Net Zero by 2030.
